Technology

LearyArrayTM

5th generation automatic gluing and quality assurance has arrived!

The new LearyArrayTM system offers an unprecedented array of inline quality assurance and glue application control. The new system supports our MonetTM pictorial operator interface ensuring ease of use and rapid make ready times.

The ArrayTM includes support for the latest technological advances including LearyVIEWTM, which provides camera based detection for tasks such as Braille analysis and LearyNETTM, a hugely valuable remote assistance feature which enables the Leary service team to log on to your system via the internet - ensuring you're never more than a few minutes away from expert advice and technical support.

Do you want to cut make ready times, reduce spoilage, reduce downtime, Increase running speeds and guarantee quality?

Now You Can.
